Fish Seafood Grill & Restaurant is a large modern seafood concept at Melbourne's new Waterfront City precinct at the Docklands.

Restaurant

Feast your eyes (and taste-buds) on this stunning new restaurant

The interior is stylish yet welcoming with floor to ceiling windows so every table has a view of Melbourne's bustling waterways. A sure talking point is the restaurant's striking tropical aquarium – visible to both restaurant patrons and those passing by along the promenade. Inside the venue is yet another aquarium with cold water fish on display.

On a sunny afternoon dining outdoors in the shaded alfresco area is a must. The expansive menu features the freshest seafood from Australia's abundant seas. Everything from oysters to blue swimmer crab, moreton bay bugs to amazing platters will tempt seafood fans.

The archway between the restaurant and café features 2 fresh seafood tanks with live crayfish, barramundi, parrot fish, baby snapper and mud-crab. Not just for looks - the contents of these tanks are part of the "live seafood menu".

Perfect for special occasions and available for private events, Fish Seafood Grill & Restaurant is open 7 days. The venue is fully licensed and bookings are recommended.

State Of The Art Oven

The freshness and quality of the seafood served at Fish deserves to be prepared by an equally impressive cooking method

Introducing Fish's spectacular rotisserie oven!

This gargantuan oven commissioned by the owners of Fish Restaurant has been produced in Australia by specialist engineers. It towers at over 2 metres in height and cooks at a whopping 500 degrees celsius while rotating at high speeds to quickly seal in the flavour and moisture of the fish while melting away the fats; resulting in a succulent fish that's reduced in fat, cooked to perfection and bursting with flavour.

How much did this specially designed one of a kind rotisserie oven cost? We won't give you numbers, but can say it was a "staggering amount" - on display for diners to view only at Fish Seafood Grill & Restaurant.

Flying Fish n Fries

Adjacent to the Restaurant, Flying Fish n Fries offers quality fish & chips for those after a quick bite or casual meal. Relax in the licensed café area and admire the fantastic waterfront location or request take away.

Also acting as a fresh seafood market, Flying Fish n Fries is a favourite with locals who like to purchase fresh seafood to prepare at home.
